MAK Group, from the onset as focused on providing quality solutions for the past 25 years, it has been rendering its services to the building and construction industry. MAK group wanted to launch a new sister organization with a focus on piping and piping components, which would cement their reputation as a leader in the building and construction industry, thus FATEH AL-JUBAIL was born.

Launched in the year 2006, FATEH AL-JUBAIL is today a leading name, as a stockiest of mechanical components and specializing in pipes and pipe components. Since its inception, FATEH AL-JUBAIL has been rapidly expanding, catering industries, from the building construction to oil and gases, its major clientele also include associated engineering industries such as marine and petrochemical industries affiliated with SABIC And SAUDI ARAMCO.

The key to our success of our merchandise from reputed international manufacturers, with highest degree of quality and trust with their products and our core values which include transparency and insure the safety of the products supplied.

We measure our performance and determine improvements services, reliability and quality.

The strong pedigree of qualified and highly skilled sales staffs can provide customized solutions and technical guidance. Finally the unbeatable customer service support and after sales service complete the chain.

We enhance the performance of our customers by strategically placing our product in the market through competitive pricing and unmatched service.

We believe in long lasting mutually beneficial relationship, do spare a moment to browse through the brochure which will provide you with more detail insight of our product line. We value our business and look forward to continue to serve in the future. Please do not hesitate to get in touch regarding any query that you may have. We at FATEH AL-JUBAIL and our staff looking forward hear from you soon.

INDUSTRIAL, MECHANICAL, OILFIELD & INSTRUMENTATION

- CS,DI, SS PIPES, FORGED & BUTT WELD FITTINGS, INSTRUMENTATION
- CS , CI , DI & SS VALVES
- All Types of Structural Steel
- PVC & Fiber Water Tanks
- All Types of Mechanical Couplings & Supa Flange Adaptors

PVC, CPVC, ELECTRICAL, BUILDING & SANITARY

- PVC & CPVC PIPES, FITTINGS & VALVES
- PVC NEMA STD, ELECTRICAL CONDUITS & ELECTRICAL MATERIALS
- ALL TYPES OF SANITARY, PLUMBING MATERIALS & BATHROOM ACCESSORIES

POWER TOOLS, HAND TOOLS, FASTENERS & SAFETY PRODUCTS

QUALITY STANDARD FOR PIPE

High quality Pipe is all made and controlled to the relevant standards such as: ASME, ASTM, BS and DIN/WERKSTOFFE.

SIZES FOR PIPE

All Pipe is available available in sizes from 1/8" through to 64" Nominal Bore.

MATERIAL GRADES FOR PIPE

All Pipe is available in the following material grades:

STAINLESS STEEL

A312 304/L
310
316/L
321/H
347/H
410
440
904L

CARBON STEEL

A106 Gr.B
A106 Gr.C
API 5LB

LOW TEMPERATURE

ASTM A333Gr.6/3

ALLOY STEEL

A335 P1, P5, P9, P11, P12, P22, P91

HIGH YIELD

API 5L X42, 52, 60, 65, 70

6% MOLY / DUPLEX & SUPER DUPLEX

UNS S31254
UNS S31803, S32205
UNS S32760, S32750, S32507

FLANGES

Fateh Al-Jubail Trading Est.

QUALITY STANDARD FOR FLANGES

High quality Flanges all made and controlled to the relevant standards such as: ASME, ASTM, BS and DIN/WERKSTOFFE.

SIZES FOR FLANGES

All valves are available available in sizes from 1/4" through to any size.

WALL THICKNESS FOR FLANGES

Schedule 5s through to Schedule XXS and heavier.

DIMENSIONS AND PRESSURE RATINGS FOR FLANGES:

- ANSI, MSS- SP-44, BS3293, API 605 150lb through to 2500lb
- Flange Facings: Raised Face, Ring Type Joint, Large Tongue & Groove, Small Tongue & Groove
- BS4504 - PN6, 10, 16, 25, 64
- BS10 - Table D, E, F, & H
- DIN Standards

Special items according to customer drawings.

MATERIAL GRADES FOR FLANGES

Flanges are available in the following material grades:

STAINLESS STEEL

MALLEABLE IRON FITTINGS

Fateh Al-Jubail Trading Est.

QUALITY STANDARD FOR SOCKET WELD FITTINGS

We offer one of the most extensive selections of black and galvanized malleable iron fittings in the industry. Available in 13 diameters from 1/8" to 6", every fitting is produced to exact specifications. All galvanized products are zinc-coated for water applications – and meet all low-lead requirements. In addition, all of our iron fittings undergo our rigorous testing and quality inspection.

PRODUCT AVAILABILITY & HIGHLIGHTS

- Stocked in most figures from 1/8" to 6"
- Available in Black finish for oil and gas fluid applications
- Available in Galvanized finish for water, air and steam installations
- Available for servicing 150 psi and 300 psi applications
- Hot dip galvanizing process according to ASTM A-153 standards
- Galvanized Products meet California Lead Plumbing Law

SPECIFICATIONS

- Threaded ends meeting with ANSI/ASME B1.20.1 standards
- Material meeting with ASTM A-197 standards
- Dimensions meet the following:
 - Threaded Fittings – with ASME B16.3 standards
 - Unions – with ASME B16.39 standards
 - Bushing Reducer and Plugs – with ASME B16.14 standards
- Socket Weld Fittings are available in the following material grades:

VALVES

Fateh Al-Jubail Trading Est.

Flanged

SIZES RANGE

½" to 14" (in all Schedules)
Larger sizes are available on request bases.

This standard covers iron-body, resilient-seated gate valves, including tapping gate valves, with nonrising stems (NRS) and outside-screw-and-yoke (OS&Y) rising stems for water supply service. 1.1.1 Sizes. Gate valves covered by this standard are 3 in. (75 mm), 4 in. (100 mm), 6 in. (150 mm), 8 in. (200 mm), 10 in. (250 mm), 12 in. (300 mm), 16 in. (400 mm), and 20 in. (500 mm) nominal pipe size (NPS). Sizes refer to the nominal diameter, in inches (or millimeters), of the waterway through the inlet and outlet connections and the closure area. 1.1.2 Valve pressure rating. The minimum design working water pressure shall be 200 psig (1,380 kPa [gauge]) for 3- through 12-in. (75- through 300-mm) size and 150 psig (1,034 kPa [gauge]) for 16- and 20-in. (400- and 500-mm) sizes. 1.1.3 Conditions and materials not covered. This standard is not intended to cover special conditions of installation or operation, such as built-in power drive, installation in vertical or steeply inclined lines, conveyance of unusually corrosive water, or excessive water hammer. Such conditions are beyond the intended scope of this standard and require special consideration in design and construction. Joint accessories for end connections, such as bolts, gaskets, glands, follower rings, and so forth, are not covered in this standard.

TYPES

- AWWA Resilient seated gate valves NRS/OS&Y FLANGED ENDS 200/250PSI
- AWWA Resilient seated gate valves NRS PUSH ON ENDS 200/250PSI
- AWWA Resilient seated gate valves NRS MJ+MJ / FL+MJ 200/250PSI
- AWWA Resilient seated gate valves NRS THREAD ENDS 200/250PSI

DESCRIPTION

- Design confirms to: AWWA C509/C515
- Flanged confirms to: ANSI B16.10
- Test & Inspection: AWWA C509/C515
- Suitable medium: water and neutral liquid
- Working temperature: NBR ≤ 80°C, EPDM ≤ 120°C
- Operator: handwheel, nut, extension stem, gear operaFL+MJ 200/250PSI
- AWWA Resilient seated gate valves NRS THREAD ENDS 200/250PSI

Summary

At KVK Commercial Products we are dedicated to the provision of high quality waterworks pipeline solutions, encompassing everything our customers need, from point of production to point of consumption`. In short, we are committed to giving the worldwide waterworks marketplace the best, most reliable and complete service possible.

Design and Development

We complement our standard product range of pipeline products by maintaining a formal relationship with the highly skilled and experienced development and design team at Design and Provide Limited. Together we work on improvements to current products, and the development of innovations using the very latest CAD and finite element analysis systems.

DUYAR VALVE QUALITY POLICY

TO FULLY MEET THE THE NEEDS AND EXPCTATIONS OF OUR CUSTOMERS PRODUCTS & SERVICES; OUR MAIN TARGET IS TO PRESENT IN TOP QUALITY AND BEST TOTAL COST IN COMPLIANCE WITH APPLICABLE LAWS AND STANDARDS AT ONCE AND APPROPRIATE TIME.

OUR MAIN PURPOSE IS PRODUCING THE QUALITY WITH THE PRODUCT INSTEAD OF CONTROLLING IT. FOR THIS OUR PROCESSES ARE UNDER CONTROL AND WILL BE IMPROVED CONTINUOSLY OUR BASIC METHODS AND PRINCIPLES ARE "CONTINUOS IMPROVEMENT" AND DO THE JOB RIGHT AT FIRST TIME.

COMPLETE RANGE OF CHILLED WATER VALVES

PRESSURE RATING

6000PSI FOR STAINLESS STEEL, 300/ 1000 /3000PSI FOR BRASS

Pressure Gauges - Dry Gauge - Bottom Mount

Ideal for indicating pressure above atmospheric.

Usable on air, oil, gas, water or any other pressure medium which does not attack bronze.

Install protective syphon when used on steam.

Pressure Gauges - Liquid Filled - Bottom Mount

For severe service requiring a waterproof, steamproof or weatherproof gauge, with the added problems of pulsation and vibration.

This pressure gauge has shock absorbing polyglide movement plus liquid filling to absorb effect of vibration and pulsation.

FASTENERS AND STUD BOLTS

Fateh Al-Jubail Trading Est.

QUALITY STANDARD FOR FASTENERS AND STUD BOLTS

High quality Fasteners and Stud Bolts all made and controlled to the relevant standards such as: ASME, ASTM, BS and DIN/WERKSTOFFE.

About Plumbing Valves

Plumbing valve is a mechanical in-line device used to open or shut off the flow of water, gas or oil. Valves come in a variety of types and sizes and can be used for emergency shut-off, maintenance, backflow prevention, drainage, utility and other applications.

Gate Valves

Threaded and sweat gate valves in 1/2", 3/4" and 1" sizes with lead-free compliant brass body.

Ball Valves

1/4-turn, full flow, lead-free brass ball valves in sizes up to 2" with threaded, sweat (solder) and union connection

Gas Ball Valves

Threaded gas ball valves in 1/2", 3/4" and 1 sizes. For use with natural, propane or manufactured gas. CSA approved

Y-Strainers

Bronze in-line threaded Y-strainers with factory plug for sediment filtration

Check Valves

Swing type and spring type inline check valve with threaded and sweat connection options.

Sillcocks & Hose Bibs

Frost free sillcocks, hose bibs and other sillcock types in 1/2" and 3/4" sizes for indoor and outdoor applications.

Pressure Relief Valves

Temperature and pressure relief valves in various types, connection sizes and psi pressure settings.

Drain Valves

1/4-turn and multi-turn lead-free drain valves for use with water heaters, storage tanks or in-line plumbing

Stop Valves

Outlet stop valves in angle and straight options with compression, sweat, PEX and threaded connections.

Brass Air Vent

Air vents and air valves listed in this category include float-type hydronic air vents by Taco, adjustable steam

Steel Test Plugs

40mm up to 450mm

Aluminium Test Plugs

40mm up to 600mm

Multi-lock Steel Test Plugs

425mm to 2000mm sizes for indoor and

Double seal steel test plug

Threaded and sweat gate valves in 1/2", 3/4"

Canvas Inflatable Air Bags

The answer to a variety of pipe sealing problems in all Industries from Sewerage, Petrochemicals, Food Processing, Mining etc.
